WaterFixCoverLetter 10-21-15.docx

**Attachment Withheld Ex. 5 - Deliberative**

Hi Kathleen,

Just checking in on where we are on this. Are you all ok with this version? What are your thoughts about separating the detailed comments from the formal letter. If you want to include them we will all need to go through them carefully to make sure they comport with the approach of the cover letter and do not contain language that could be taken out of context.

Thanks

Susan

Kathleen,

Cynthia and I have taken a stab at revising the letter in light of our conversation on Friday. Take a look and see what you think.

Susan
